Underwater Hockey

**BREIER**

The Finswims Compagny

LA COMPAGNIE DES PATHEURS

## Description

Our fins are especially designed to enhance propulsion in underwater hockey fast actions. Foil multi-layers structure can be bend, twisted in all axes with high energetic responsive abilities. The composite materials are carefully chosen in order to give swimmers 3D power propulsion fins with the perfect weight and strength to hold up the challenge of underwater game. Fully protected and approved for competition.

## Technology

Technology : prepreg

Fabric : E-glass      Resin : epoxy

Performance : 40% more responsive than plastic

## Spécifications
